nickwoodward5@gmail.com Phone: 732-236-2957

Github: <https://github.com/Nick12322> Portfolio: <https://nick12322.github.io/updated-portfolio-fullstack/>

LinkedIn: <https://www.linkedin.com/in/nicholaswoodward95/>

Full stack MERN developer looking in multiple areas, looking to contribute as much as possible as fast as possible. Passionate for video games, movies, television, learning, business, and developing software to help grow the capabilities of modern companies.

Certifications/Licenses:

UCSD Web Development Bootcamp Graduate June 2018 to August 2018

Technical Competencies:

- HTML
- JavaScript
- node.js
- CSS
- bootstrap
- jQuery
- Ajax
- JSON
- MySQL
- MongoDB
- React.js
- Sequelize.js
- Git
- RESTful APIs
- Express.js
- Github / Version Control
- Es6
- Python

Applications Built:

- **Esport Website:** <https://nick12322.github.io/project-1/>

An application for getting the most up to date information regarding the pro scene of Dota 2, a video game. Primarily styled using bootstrap, this application was made entirely from front end javascript, using AJAX calls for up-to-date information, and storing some user information in a google firebase database.

- **TravelMate:** <https://travelmate-20180802.herokuapp.com/>

A Full-Stack application made using express, handlebars, sequelize, and MySQL. You can make a search in a database for a location such as London, England, a list of profiles made using handlebars will appear with people willing to guide you on your adventure to whichever place you may be traveling.

- **Journey On:** <https://journeyonandon.herokuapp.com/>

A Full-Stack application made using the entire MERN stack. A user signs up, enters a journey that they would like to undertake, such as losing weight, or learning to program, and the website has a kanban board and calendar that will track your progress moving through your journey.
